

Manage Your Fleet More Efficiently with Data Insights and Optimization.

Simple to use and easy to implement, Ford Telematics gives you uptime and productivity tools that can create operational efficiencies from new fleet insights. You can spend less time managing your vehicles and more on maximizing profits with data-driven fleet optimization.

Factory-Installed or Existing Vehicle Retrofits, Ford Helps You Manage Your Business Better and Protect Your Fleet

Ford-engineered and integrated telematics modem technology will enable your vehicles to connect seamlessly with our platform without the need for an aftermarket Plug-In Device. A Ford-engineered Plug-In Device is also available to retrofit most recent Ford vehicles already in service.

Telematics Software That Does the Hard Work for You

Ford Telematics is your gateway to our wide range of solutions. This simple, yet powerful tool delivers manufacturer-grade information, insights and solutions right to your fingertips. The easy-to-use interface enables you to manage your fleet in real-time and quickly assess where you need to take action. It's software that helps you control your fleet.
