

NOCELL™

Enforce your driver safety policy—
protect your employees, assets, and the public.

Features

- **Full Customization:**
Set enforcement parameters & app-level device use policy.
- **Rogue Device Alerts:**
Know if a driver brings a rogue device in the vehicle.
- **Phone Handling Alerts:**
Know if a driver attempts to handle a device while driving.
- **Driver Tamper Alerts:**
Know if a driver tries to kill the NOCELL app or Bluetooth.
- **Privacy Protection:**
Disable tracking during non-work hours to protect privacy.
- **Commercial-Grade Design:**
iOS & Android compatible software for fleets of any size.

Register up to three devices to each NOCELLtag so both personal and work devices can be tracked and enforced.
