# ALTERNATIVE FUEL VEHICLES

Twenty years ago, Toyota released Prius and we made our mark as the industry leader of hybrids. Since then, we've been furthering our quest for efficient yet powerful mobility and expanding our lineup of alternative fuel vehicles. Model year 2020 hybrids and newer now come with an enhanced hybrid battery warranty covering 10 years or 150,00 miles, whichever comes first. This enhancement serves as an indication of our confidence in the quality, dependability and reliability of our products.

## HYBRIDS

2021 RAV4 Hybrid  
41/38 est MPG

2021 Venza  
40/37 est MPG

2020 Highlander Hybrid
