

Nook Event Pods Partners with International LCT Show 2019 ~Exclusive Offers~

International Luxury Coach and Transportation Show
March 24 - 27, 2019
Mandalay Bay Resort and Casino, Las Vegas

Make your event space more efficient, dynamic and flexible with Nook Event Pods. They bring people together to focus and collaborate or socialize and unwind – just steps off the crowded and noisy event floor.

Loaded with high tech capabilities, Nooks are perfect for exhibitors and attendees who need a semi-private space to conduct meetings, make client presentations and complete business tasks. And they make an ideal locale for those same exhibitors and attendees to unwind and relax before/after the event, in downtime and during meal breaks. Added bonus: Corporate execs won't have to leave the event venue when they need privacy for meetings and negotiations and when they're looking for a quiet place for a call back home or to unwind with colleagues or clients.

Stand out on a crowded event floor! Nook Event Pods offer so many branding possibilities! Add your logo to selected areas of the pod or wrap the entire Nook to increase your company's visibility and brand recognition. Digital signage and virtual reality capabilities are easy add-ons.

Nook Bars: Maximize floor space and business opportunities when you use Nook Event Pods to create catering sections, meeting zones, relaxation and information stations. Lease hourly work and meeting spaces, provide concession areas and more!

Book a Nook today to take your next corporate event from basic and boring to experiential and engaged and learn how Nook Event Pods help establish your business as an industry leader: www.nook.events

*When you Book a Nook, your service includes delivery to the destination of choice, testing and packaging removal. Note that Nook Event Pods come fully assembled (you don't have to worry about missing or misplaced booth equipment) and are set on heavy-duty casters for ease of movement into the event locale and on the event floor. And because everything required to build and use your Nook comes in and then leaves with us (there's no waste and unused packaging materials), Nooks promote an eco-friendly event.
